

Helping Those Who Help Others

Pre-Hospital Trauma Life Support 7th Edition

Basic & Advanced Provider Course

Course Pre-Requisites: Must be a current CFR, EMT, AEMT-CC, AEMT-P

Pre Hospital Trauma Life Support is a dynamic and comprehensive program designed to help the novice and experienced providers the newest technology and information available when treating the traumatic patient. PHTLS was developed by the National Association of Emergency Medical Technicians and the Committee on Trauma of the American College of Surgeons. The 7th edition is bringing new information about trauma patient assessment, airway management and total patient management.

Our experienced PHTLS Instructors under the supervision of a Board Certified Emergency Medicine Physician are prepared to bring real world scenarios to give you the best education and learning experience possible.
